

Honoring Dr. Martin Jackson

Salt Tectonics Modeling Complex

Martin Jackson's Impact

Dr. Martin Jackson is a pioneer in the modern study of salt tectonics, which has been a strong component of the Bureau of Economic Geology (BEG) research program since the late 1970s. During his three-decade tenure at the BEG, Dr. Jackson created the Applied Geodynamics Laboratory (AGL), widely considered the world's premier institute for research on salt tectonics. He has also served as a thought leader for concepts now widely disseminated throughout the oil and gas industry.

To honor Dr. Jackson's contributions, the BEG has launched an effort to raise funding toward a newly renovated **Salt Tectonics Modeling Complex**.

Salt Tectonics Modeling Complex

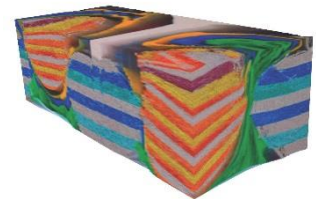

The *Salt Tectonics Modeling Complex* is part of the BEG's recent initiative to modernize and re-fit laboratory facilities. The new research complex will provide scientists and students with the space and equipment necessary to greatly improve AGL's physical-modeling capabilities.

Dr. Jackson is considered one of the world's foremost authorities on the subject of salt tectonics.

Founded by Dr. Jackson in 1988, the AGL produces innovative concepts that are widely disseminated throughout the oil & gas industry.

The new complex will advance modeling and analysis capabilities for salt basins around the world.

Make a Gift in Honor of Dr. Jackson

Our goal is to raise a total of \$500,000 to fund capital renovations and upgrades for the *Salt Tectonics Modeling Complex*. We are requesting contributions from companies that have benefitted from the BEG's salt tectonics research, as well as individuals personally influenced by Dr. Jackson's leadership. If you are interested in supporting this initiative, the following options are available:

- Visit our website at www.jsg.utexas.edu and follow the link to make a gift online.
- Write a check to *The University of Texas at Austin* and mail to: *Jackson School of Geosciences, 2305 Speedway, C1160, Austin, TX 78712*. Write *Salt Tectonics* in the notes section.
- Contact us to assist you with questions on corporate gifts or other giving options.
