

## **Instructions for linking figures in GeoFluids abstracts**

**Here are instructions how to link your small figure on the front page of your GeoFluids abstract to an enlarged figure on the second (and possibly third) page.**

- 1. Insert small and enlarged figures into Word document**
- 2. Mark (click on) enlarged figure**
- 3. Go to -> Insert -> Bookmark...**
  - a. Give that figure a Bookmark Name, e.g. 'Figure\_1'**
  - b. Notice, that spaces are not allowed -> use underscores**
  - c. Click 'Add'**
- 4. Right click on small figure**
- 5. Choose 'Hyperlink'**
- 6. Go to 'Place in this Document' on the left hand side**
- 7. Choose your named Bookmark from the tree**
- 8. Hit 'Ok'**
- 9. Done**

**Now you can link from your small figure on the front page to an enlarged version by hitting 'CTRL' and clicking on the small figure at the same time.**
