

Question #	Math & Science Institute Application Question
1	What is your first name?
2	What is your last name?
3	What is your email address? <i>(This should be your primary email address, NOT your school email. Your stipend information will go to this email.)</i>
4	What is your cell phone number?
5	What is your parent/guardian's email address?
6	What is your UT EID? <i>If you applied to UT, use the UTEID you created for that. If not, you must create one. You will NEED a valid UTEID to receive a stipend!</i> <i>You can find/create your UTEID here</i> <i>(https://idmanager.its.utexas.edu/eid_self_help/?geid=)</i>
7	What universities, colleges, or vocational schools have you been accepted to?
8	What university, college, or vocational school will you be attending?
9	If you said Other, name the school you'll be attending. If not, leave blank.
10	What do you plan to major in/study?
	SHORT ANSWERS (3 total)
11	Why do you want to participate in the Math and Science Institute? What do you hope to get out of it, and how do you think it will help you prepare for college? <i>(minimum 50 words, maximum 250 words)</i>
12	If you are planning to major in something other than geoscience, how do you plan to incorporate your interest in geoscience into your college experience? Examples may include taking geoscience courses, participating in extracurricular activities or engaging in geoscience-related research. <i>(minimum 50 words, maximum 250 words)</i>
13	Tell us how you plan to stay involved with GeoFORCE while in college. Do you plan to apply to be a Counselor or PLA (Peer Learning Assistant for Math & Science) next summer? Will you be part of our college alumni organizations (located at campuses across the state)? Will you mentor younger students? <i>(minimum 50 words, maximum 250 words)</i>
14	Did you take Pre-calculus in high school?
15	Did you take Calculus in high school?
16	What math class will you be taking in your first semester of college?
17	When did you take your most recent Chemistry course?
18	Will you be taking Chemistry your first semester of college?
19	When did you take your most recent Physics course?
20	Will you be taking Physics your first year of college?
21	What was your cumulative high school GPA? (e.g. 3.42)
