

Strawn group
Garner fm.
Mingus shale mb.

72-T-3
(Erath County)

Brick plant at Thumber, deep pit on north edge of their properties about 1 mile northeast of the town. Bottom of pit lies close to top of coal. Water's original collection came from 5-10 feet above the coal.

Type locality for--

26-10 × Ammobaculites spirans Cushman and Waters, C.C., vol.3, p.149,
Sept., 1927.

Strawn group
Millsap Lake formation

72-T-5
(Erath County)

$3\frac{1}{2}$ miles west of Exray, 100'
below Thurber coal. (Waters has
never been able to furnish a map
locality.)

Type locality for --

27-2 × Textularia exrayensis Cushman and Waters, C.C., vol.5, p.150, Sept., '27
